None

Projects

- [Indian Housing Services](#)
 - A frontend web application for a housing service company.
 - Created the frontend application using **HTML, CSS, JS** and **Bootstrap**.
 - Consists of Various modern UI components like **Carousel, Flip Cards, Gallery, Testimonials, integrated google maps** etc.
 - Responsive forms are made using **formsubmit.co**. When a user submits the form, the form data is sent as an email to the company's email address.
- [Nature Alike Photography](#)
 - A react based application for a photographer.
 - Only frontend part has been created using React Js.
 - Use of various react concepts like **Components, React Router**, etc. are used.
 - Future scope: **CRUD** functionalities to be implemented.

Technical Skills

- **Languages** :- C++, Java
- **Web Programming Languages**:- HTML, CSS, SASS, JavaScript
- **Technologies/Frameworks/Libraries** :- Bootstrap, ReactJs, NodeJs, ExpressJs, NodeJs
- **Database**:- MySql, MongoDB
